Signed (Client)

Date:

I confirm that I have read and understood the terms and conditions set out below

Terms and Conditions

This offer is only applicable to cats, and does not include vaccinations for Rabies.

The offer is not to be used for any animal other than that of the registered cat within the scheme.

If during any stage of the "Vaccinations for life" programme your cat is overdue for one of its scheduled injections/boosters, according to manufacturers recommendations, it will be necessary to start the original course of vaccinations over again. If this is the case, the cost of the initial course will have to be paid in full before re-commencing on the "Vaccinations for life" programme.

If after starting the vaccination for life programme, you wish to include leukaemia cover, a restart price for the course of leukaemia vaccinations will be required to be paid in full.

This is a non-refundable offer. Ask SimplyCats staff for more details.
